

FXNewsGuard Full Installation Guide

First check if the calendar tab in your toolbox is enabled by your broker in the MT5 terminal. If this tab does not receive any news or is disabled. This program will not work!

Time	Currency	Event	Priority	Period	Actual	Forecast	Previous
15:00	BRL	GDP q/q	■	Q2		0.5%	1.4%
15:00	BRL	GDP y/y	■	Q2		2.3%	2.3%
16:00	SGD	SIPMM PMI	■	Aug			
16:30	CAD	S&P Global Manufacturing PMI	■	Aug		46.1	46.1
16:45	USD	S&P Global Manufacturing PMI	■	Aug		51.6	49.5
17:00	NZD	GDT Price Index	■			-0.2%	-0.3%
17:00	USD	Construction Spending m/m	■	Jul		-0.2%	-0.4%
17:00	USD	ISM Manufacturing PMI	■	Aug		46.8	48.0

Navigate to the Open Data Folder option in your MT5 terminal under the File tab.

Then click the MQL5 folder followed by the Experts folder and in that folder place the FXNewsGuard.ex5 file

PC > OS (C:) > Users > VS > AppData > Roaming > MetaQuotes > Terminal > 010E047102812FC0C18890992854220E > MQL5

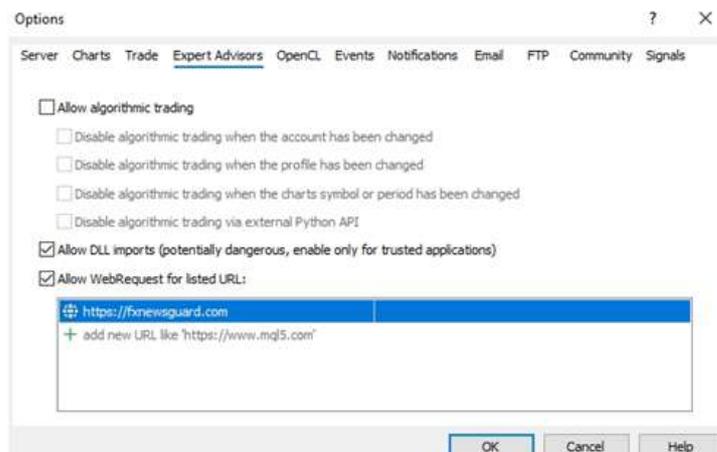

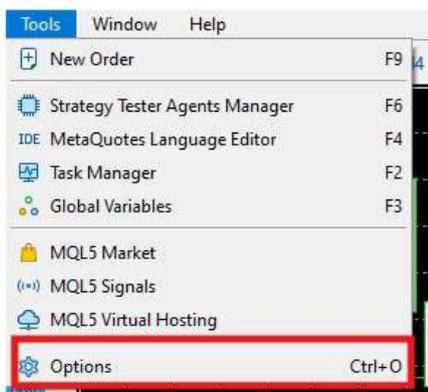

Name	Date modified	Type	Size
Account Protector	3/14/2025 6:18 PM	File folder	
Advisors	3/14/2025 6:11 PM	File folder	
AutoTrading Scheduler	3/14/2025 6:22 PM	File folder	
Examples	3/14/2025 6:11 PM	File folder	
Free Robots	3/14/2025 6:12 PM	File folder	
Market	3/14/2025 6:20 PM	File folder	
ADXToggleSupervisor	6/10/2025 7:07 AM	MQL5 Program	45 KB
ADXToggleSupervisor	6/10/2025 7:07 AM	MQL5 Source File	9 KB
Drawdownlogger	5/14/2025 6:03 PM	MQL5 Program	11 KB
EACloseMinute	3/26/2025 4:05 PM	MQL5 Program	26 KB
Flat Tracer V1	7/19/2025 12:59 AM	MQL5 Program	42 KB
Flat Tracer V1	7/18/2025 5:10 PM	MQL5 Source File	7 KB
FlatRevert_ATR_CCI	8/20/2025 11:25 PM	MQL5 Program	59 KB

Now once again navigate to the Open Data Folder --> MQL5 --> Include. In the Include folder place the file ToggleAutotrading.mqh

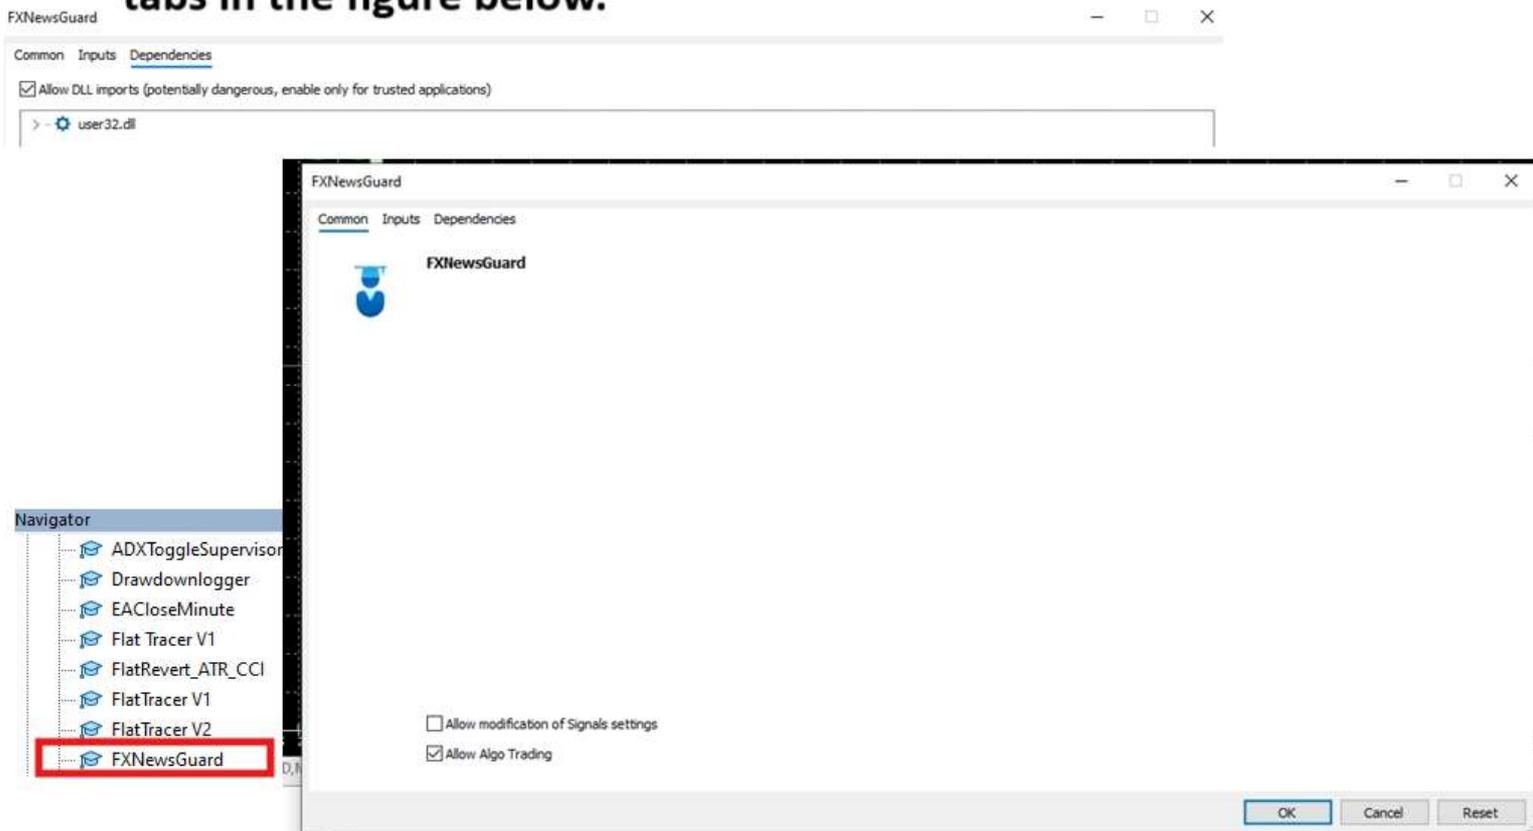

The screenshot displays the 'File' menu on the left, with 'Open Data Folder' (Ctrl+Shift+D) highlighted by a red box. The main window shows a candlestick chart for 'USTEC, M5: US Tech' with timeframes M1, M5, and M15. To the right, a file explorer shows a directory structure with 'MQL5' and 'Include' folders highlighted by red boxes. The 'Include' folder contains files like 'Autotrading ADX toggler', 'Experts', 'Files', 'Images', 'Indicators', 'Libraries', 'Logs', 'Profiles', 'Scripts', 'Services', 'Shared Projects', 'experts.dat', and 'README.md'. The bottom of the chart area shows 'ADX(14) 23.64 15.90 18.76'.

In order for the EA to work properly navigate to Tools --> Options --> Expert Advisors. There:

1. Allow algorithmic trading has to be checked
2. Allow DLL imports also checked. It uses only user32.dll.
3. Allow WebRequest for listed URL also checked.
4. In the last box shown below please add <https://fxnewsguard.com>

Then select any chart in MT5 and attach the FXNewsGuard by clicking it in the navigator. Make sure to check "Allow Algo Trading" and "Allow DLL imports" As shown in their respective tabs in the figure below.

Please enter the license key provided after purchase

The UseNewsFilter option has to be set to true if you want to toggle the algo trading for news. If it is false, the EA will function like a regular algo trading scheduler for the defined time slots.

EmbargoBeforeMinutes and EmbargoAfterMinutes define the time in minutes which disables the algo trading button before and after the news respectively.

The screenshot shows the 'FXNewsGuard' configuration window with a table of variables and their values. A red box highlights the following rows:

Variable	Value
ab MondaySlots	07:00-12:00,14:00-18:00
ab TuesdaySlots	07:00-12:00,14:00-18:00
ab WednesdaySlots	07:00-12:00,17:00-18:00
ab ThursdaySlots	07:00-12:00,14:00-18:00
ab FridaySlots	07:00-12:00,14:00-18:00
ab SaturdaySlots	
ab SundaySlots	
↑ UseNewsFilter	true
01 EmbargoBeforeMinutes	120
01 EmbargoAfterMinutes	120
01 0=low, 1=medium, 2=high	2
01 CalendarCheckEverySec	30
ab ExtraNewsCurrencies	USD,EUR,GBP
↑ Close trades before embargo	false
↑ LogToFile	true

Buttons: Load, Save, OK, Cancel, Reset

0 = low, 1 = medium, 2 = high defines the type of news for which the news filter is applied for. For example, if 2 is selected then the algo trading is turned off during the embargo period only for high impact news!.

CalendarCheckEverySec checks the calendar every X seconds as defined.

ExtraNewsCurrencies – Lets you manually specify which currencies' news to monitor (e.g. adding USD will consider only U.S. news events). It will toggle only for the US events while ignoring high impact news from other countries. Be careful of the automatic override!

If it is attached to the EURUSD chart it will take the embargo from both USD and EUR news even if only USD is chosen! The chart symbol matters!!

Close trades before embargo will close all trades before the embargo period begins

LogToFile will save all actions taken by the EA in a CSV located at MQL5/Files

File name: AutoTradingScheduler.csv

You can also see in the experts tab the actions taken by the EA as shown below

The screenshot displays a trading platform interface. On the left, a 'Navigator' window lists various expert advisors, including 'TrendTracer - ADX + ZigZagV11'. The main area shows a candlestick chart for 'USTEC,H1' with a time range from 29 Aug 2025 to 2 Sep 17:00. Below the chart, a table displays the log of actions taken by the expert advisor.

Time	Source	Message
2025.09.03 13:32:25.558	Experts	automated trading is disabled
2025.09.03 13:54:38.476	FXNewsGuard (USTEC,H1)	AutoTrading Scheduler EA started (slots + news + logging).
2025.09.03 13:56:11.248	FXNewsGuard (USTEC,H1)	AutoTrading Scheduler EA started (slots + news + logging).
2025.09.03 14:23:08.795	FXNewsGuard (USTEC,H1)	AutoTrading Scheduler EA started (slots + news + logging).
2025.09.03 14:25:20.124	Experts	automated trading is enabled
2025.09.03 14:41:59.955	FXNewsGuard (USTEC,H1)	AutoTrading Scheduler EA started (slots + news + logging).
2025.09.03 14:42:00.306	Experts	automated trading is disabled

The 'Experts' tab is highlighted in the bottom navigation bar. The interface also includes a 'Toolbox' on the left and a 'Market Overview' section on the right.

Disclaimer

Not Investment Advice.

FXNewsGuard is a software tool. It does not provide financial, investment, or trading advice. Users are fully responsible for their own trading decisions.

No Guarantee of Profit.

Using FXNewsGuard does not guarantee profits or prevent losses. Trading financial instruments carries inherent risks, and past performance does not indicate future results.

Broker/Prop Firm Compatibility.

FXNewsGuard relies on your broker's MT5 calendar feed. If your broker does not provide reliable calendar data or disables this feature, the EA may not function as expected. Always verify compatibility before use.

Market Risks.

High-impact news can create extreme volatility, slippage, widened spreads, or execution delays. FXNewsGuard cannot eliminate these risks, only manage autotrading toggling around news.

Execution Limitations.

The EA may fail to close or block trades if internet connection, VPS, broker server, or MetaTrader terminal encounters disruptions.

Prop Firm Rules.

While FXNewsGuard is designed to assist with prop firm compliance, it is the user's responsibility to ensure their strategy fully adheres to the firm's specific rules.

No Liability.

The developer of FXNewsGuard assumes no responsibility for financial losses, missed opportunities, or account breaches resulting from use of the software.

Technical Requirements. Proper functioning requires:

- MT5 terminal running continuously (or on VPS).
- Calendar tab enabled and updating from the broker.
- DLL imports enabled (user32.dll).
- WebRequest enabled (for license verification, if applicable).

User Responsibility.

By using FXNewsGuard, you acknowledge that you understand the risks of trading and accept full responsibility for your results.
